PROJECTS

TheWeeklyExtra - News Aggregator (Oct 2020 - Jan 2021)
https://www.theweeklyextra.com/

- Aggregates news articles from different outlets by calling the Newsapi with NodeJS/Express and ReactJS
- Using MySQL/ClearDB database, it allows token-based user authentication and the ability for users to save articles and delete saved articles

Slowpoke-dex (Aug 2020)
https://slowpoke-dex.herokuapp.com/

- An online pokedex used for retrieving stats, moves and images of Pokemon
- It calls the PokeApi using Node/Express and sends data via JSON to be generated in HTML using EJS

Covid-19 Tackmap (Apr 2020 - May 2020)

https://www.covid19trackmap.com/

- Tracks every country's Covid-19 cases, deaths and recoveries using the Disease.sh API
- Displays data on a tile map provided by LeafletJS
